VALENTINE EZE

I have participated both in private and enterprise scale projects. I have been able to build and deploy programs in an infrastructure as code, this have led me to implement diagrams, which I employed by networking my infrastructure, provisioning servers and security groups, configuring auto scaling, provisioning database and finally deploying a highly available web app. I am currently looking for a job opportunity, were i would have opportunity to use my skills, while making significant contribution to the success of the company.

Professional Experience

2021 – present Lagos, Nigeria	**Fullstack Instructor,** *New Horizons* ⧉ • I teach Fullstack development, which includes various low-level programming languages, like Javascript and Python. • Monitor, and administer students projects. • Taught about 2000+ students software programming.
04/2020 – 06/2022 Kampala, Uganda	**Lead Frontend Developer,** *Yammieshoppers* ⧉ • Built the company's website using html/css frontend • Led a team to a succesful deploy of the first company products • Logged and monitored the code against for a failure and traffic
11/2018 – 09/2021 Lagos, Nigeria	**Fullstack Developer,** *Pematrix.ng* ⧉ • Worked on different companies fullstack projects • Deployed about 30+ enterprise application in 3years • Monitored and logged error for clients

Skills

AWS
Ec2, Cloudformation, VPC, Cloud9, s3, RDS, Cloudfront, DynamoDB, Registry, AWS Lambda etc.
